SUMMARY

An experienced Drupal Developer with a strong foundation in full-cycle development and DevOps, I am eager to contribute my expertise in Drupal 7/8/9 and diverse technologies like Node.js, Angular, and Docker to innovative projects. With a proven track record of performance optimization and module development for large-scale projects, I am excited to align my skills with the mission of advancing robust, scalable web solutions. My passion for technology and continuous improvement drives me to engage in challenging environments.
